MANAGEMENT DISCUSSION & ANALYSIS REPORT

ECONOMY OVERVIEW:

The global economy grew at a sluggish pace in FY 2015-16 primarily impacted by developments in the commodities sector, especially the fall in oil prices, monetary policy decisions across countries, sharper-than-expected slowdown in the Chinese economy; and a volatile financial and political environment in emerging markets.

India's GDP grew by 7.6% in FY 2015-16 primarily aided by policy initiatives of the Government of India, despite contraction of global exports and two consecutive years of inadequate rainfall. The Government is focusing on strengthening the economy with various reform measures; and is aiming to improve both social and physical infrastructure in order to set structural drivers for long-term sustainable economic growth. These all-encompassing initiatives, coupled with a low current account deficit, low inflation levels and adherence to a fiscal recovery path have supported economic recovery.

INDIAN CONSTRUCTION AND INFRASTRUCTURE SECTOR:

After recording impressive growth in the early part of this decade, the construction sector in India has witnessed steady decline in growth. After an impressive 10.8% growth in 2011-12, the sector has seen growth plummet down. In fact, in 2015-16 growth reduced to 3.7% compared to 4.4% in 2014-15

This slowdown in activity has had an adverse effect on the entire construction industry in India. Most companies across the industry are riddled with large debt burdens and very tight cash flows which have severely hampered operations. To elucidate this further, let us take a more granular look at the state of infrastructure in India today.

The construction and infrastructure sector and economic growth have a symbiotic relationship. As described in The Economic Survey of India, 2015-16, infrastructure is a sine qua non or absolute necessity for robust economic growth in India. The construction sector is the second largest segment after agriculture in India's economy providing employment to 40 million people and contributing to around 8% of India's GDP.

As noted in a study conducted by ASSOCHAM, the output multiplier demonstrates how an increase in demand of Indian construction sector can lead to an increase in overall output of the economy by 2.4 times thereby showcasing strong backward linkages of the sector with ancillary and complementary industries such as cement, steel, iron, bricks, sand, chemicals, heavy machines and equipment, sanitary ware, wood, electrical and other fixtures, paints and others.

Equally, steady economic growth is essential to create a balance between risk and return in long term investments like infrastructure projects, in order to attract capital into the sector. Finally, the general economic well-being and purchasing power of the population needs to improve to afford and sustain better infrastructure

OPPORTUNITIES & THREATS:

The risk be it external or internal, is inherent in every business. Economic slowdown impact most segments of the economy. The main concerns are slowdown in growth in the economy, demand constraints for the products arising from the prevailing environment, natural calamities, low disposable income and change in the priority of consumers and fierce competition leading to higher spend on trade activities and promotional support necessitating allocation of more resources.

Formalised process of identifying and assessing business risk; specific action and monitoring mechanisms were put in place to manage these business risk.

In order to mitigate the risk, your Company has closely monitored various aspects like cost of the

construction, material, time of completion of project etc. and whenever it has realized to take immediate action, it has given effect to. Focus on financial discipline including effective management of net working capital has helped to overcome the above risk and concerns to some extent.

SEGMENT ANALYSIS AND REVIEW:

The Activity of the Company is to provide service of construction. Therefore the Company operates in a single business / geographical segment as envisaged in Accounting Standard (AS-17) issued by the ICAI. Hence, segment wise performance is not furnished.

FUTURE OUTLOOK:

The Government of India is taking various steps to boost the infrastructure development in the country. Looking at the huge potential for growth in the infrastructure sector, your company sees a good outlook for the coming years and the Company will benefit from the same.

RISK & CONCERN:

The Company is exposed to external business risk, internal risk and financial risk. External business risks arise out of variations in place of construction material etc. Internal risks cover operational efficiency and ability to withstand competition. Financial risks are in the nature of interest rate variations.

FINANCIAL PERFORMANCE:

An Overview of the financial performance is given in the Director's Report. The Audit Committee constituted by the Board of Directors periodically reviews the financial performance and reporting systems.

INTERNAL CONTROL SYSTEM, ITS SECURITY AND ADEQUACY:

INTERNAL CONTROL SYSTEM:

The Internal Control System is designed to prevent operational risks through a framework of internal controls and processes. The Company has in place adequate system of internal control which is commensurate with its size and the nature of its operations. Our internal control system ensures that all business transactions are recorded in a timely manner, the financial records are complete, resources are utilized effectively and our assets are safeguarded.

HUMAN RESOURCES:

“Annexure – B” to the Independent Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Maruti Infrastructure Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transac-

tions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls

Over Financial Reporting Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Significant Accounting Policies

1.1 Basis of preparation of financial statements:

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of the Companies Act, 2013, ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Companies Act, 2013, to the extent applicable. Further, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable.

1.2 Presentation & disclosure of financial statements

The company has prepared & presented the financial statements as on March 31, 2016 as per the Schedule III notified under the Companies Act, 2013. The Cash Flow Statement has been prepared and presented as per the requirements of Accounting Standard (AS) 3 "Cash Flow Statements".

1.3 Use of estimates:

The preparation of the financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of financial statements and reported amounts of revenue and expenses during the reported period. Such estimates are on a reasonable and prudent basis taking into account all available information; actual results could differ from estimates. Differences on account of revision of estimates actual outcome and existing estimates are recognised prospectively once such results are known / materialised in accordance with the requirements of the respective accounting standard, as may be applicable.

1.4 Revenue Recognition

a) The Company is following the "Percentage of Completion Method" of accounting. As per this method, revenue from sale of properties is recognized in Statement of Profit & Loss in proportion to the actual cost incurred as against the total estimated cost of projects under execution with the Company on transfer of significant risk and rewards to the buyer. Up to March 31, 2013 revenue was recognized only if the actual project cost incurred is 20% or more of the total estimated project cost.

Effective April 1, 2013, in accordance with the "Guidance Note on Accounting for Real Estate Transactions (Revised 2012)" (Guidance Note), all projects commencing on or after the said date or projects which have already commenced, but where the revenue is recognized for the first time on or after the above date, Construction revenue on such projects have been recognized on percentage of completion method provided the following thresholds have been met:

- I. All critical approvals necessary for the commencement have been obtained;
- II. The expenditure incurred on construction and development costs is not less than 25 per cent of the total estimated construction and development costs;
- III. At least 25 percent of the saleable project area is secured by contracts or agreements with buyers; and

- IV. At least 10 percent of the agreement value is realized at the reporting date in respect of such contracts and it is reasonable to expect that the parties to such contracts will comply with the payment terms as defined in the contracts.
- b) Determination of revenues under the percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentages of completion, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognized in the financial statements for the period in which such changes are determined. Losses, if any, are fully provided for immediately.
 - c) Revenue from the Construction contracts is recognised on the basis of percentage of completion method as specified under AS 7 issued by the Institute of the Chartered Accountants of India. Accordingly the revenue is recognised after assessing the stage of completion as at the Balance Sheet date.
 - d) For completed projects revenue is recognised when significant risks and rewards in respect of ownership of the goods are transferred to the customer.
 - e) Interest income is recognised on time proportion basis.
 - f) Dividend income is recognized when the right to receive the same is established

1.5 Fixed Assets

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost comprises of all expenses incurred in bringing the assets to its present location, including installation and commissioning expenses. The indirect expenditure incurred during the pre-commencement period is allocated proportionately over the cost of the relevant assets.

1.6 Impairment

The Company assesses at each balance sheet whether there is any indication that assets may be impaired. If any such indications exist, the Company estimates the recoverable amount of the assets or the cash-generating unit and if the same is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets are reflected at the recoverable amount.

1.7 Depreciation

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased / sold during a period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use.

Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013

1.8 Inventories

Inventories are valued as under:

- I Completed Flats - At lower of Cost or Market value
- II Construction Work-in-Progress - At Cost

Construction Work-in-Progress includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Company.

1.9 Investments

Noncurrent Investments are carried at cost. Provision for diminution in the value of long-term investment is made only if such a decline is other than temporary.

1.10 Employee Benefits

Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions for provident fund and pension as per the provisions of the Provident Fund Act, 1952 to the government. The Company's contribution is recognised as an expense in the Profit and Loss Statement during the period in which the employee renders the related service. The company's obligation is limited to the amounts contributed by it.

1.11 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to Profit & Loss Account.

1.12 Tax Expense

- i. Tax expense comprises of current tax and deferred tax.
- ii. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates as per the Income Tax Act, 1961.
- iii. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available.
- iv. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.
- v. Minimum Alternate Tax (MAT) credit is recognised as an asset when and to the extent there is a convincing evidence that the company will pay income tax higher than that computed under MAT, during the period that MAT is permitted to be set off under the Income Tax Act, 1961 (specified period). In the year, in which the MAT credit becomes eligible to be recognised as asset in accordance with recommendations contained in the Guidance Note issued by Institute of Chartered Accountants of India (ICAI), the said asset is created by way of credit to the profit and loss account and shown as MAT credit

entitlement. The company review the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that company will pay Income Tax higher than MAT during the specified period.

1.13 Earnings Per Share

- i) Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.
- ii) For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, if any.

1.14 Segment Reporting

The company is operating only in the business of construction contracts. Again the Company operates only under one geographical segment. So the disclosures in pursuant to Accounting Standard (AS-17) issued by the ICAI are not applicable to the Company.

1.15 Provisions, Contingent Liabilities and Contingent Assets

- a) A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.
- b) Contingent liabilities, if any, are disclosed separately by way of note to financial statements after careful evaluation by the management of the facts and legal aspects of the matter involved in case of:
 - A present obligation arising from the past event, when it is not probable that an outflow of resources will be required to settle the obligation.
 - A possible obligation, unless the probability of outflow of resources is remote.
- c) Contingent assets are not recognized.
